About Us

Founded in 2010 by Keith Bloxsome, Covec has built a reputation as a premium textile manufacturer, motorcycle garment producer, and has now expanded into a leading UK distributor. Partnering with some of the finest brands in the industry, we seek to streamline supply chains and deliver unparalleled service to our UK dealers.

Our extensive network and in-depth industry expertise enable us to source, manage, and deliver a wide range of products tailored to meet the specific needs of dealers. With our dedicated and passionate team, advanced logistics capabilities, and a customer-centric approach, we ensure seamless distribution from procurement to delivery.

As we expand our reach, Covec remains steadfast in its mission: to set the industry standard for excellence in distribution, providing tailored solutions that drive value and enable our clients to thrive.

**THERE IS
NO SHORTCUT TO
EVOLUTION.**

TECHNOLOGY

Abrasion Resistance

The most crucial part of the protection puzzle, Bull-it Jeans benefit from the use of Covtec materials. With decades of development in this key area, abrasion scores are the envy of rival brands.

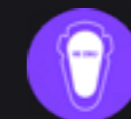

Tear Resistance

Thanks to its unique composition and fibre types, Covtec denim scores highly when it comes to tear strength. Through advanced fabric engineering, this extreme resilience comes without compromising comfort.

Stretch Denim

Designed to protect without compromise, comfort is still a priority in the Bull-it Jeans design brief. With a range of fits, sizes, leg lengths and styles to suit every rider's taste and shape, the generous stretch ensures the perfect fit, every time.

RE ZRO® Armour

The collaboration with armour experts, RE ZRO has resulted in increased protection, reduced bulk and impressive breathability since its introduction at the beginning of 2024, helping Bull-it to maintain its position as market leader.

Sustainability

All Bull-it packaging is carefully considered with the use of biodegradable materials. Even the RE ZRO armour is designed to break down in landfill after 3-5 years — traditional armour can take decades.

Low Profile

By combining the highly-developed Covtec material with RE ZRO armour, Bull-it Jeans defy the industry norm, and buck the bulky trend. Only marginally heavier than regular fashion jeans, you'll happily wear these all day. We do!

MENS GUARDIAN

AAA-CERTIFIED MOTORCYCLE JEANS

The most advanced Bull-it jean to date, the Guardian is available in jet black in a Straight and Slim fits. Made from the latest AAA-rated Covec® Oneskin lightweight denim in a broad range of sizes and in three leg lengths, the Guardian makes the ultimate Bull-it protective riding jean accessible to more riders than ever.

Using the breathable, biodegradable RE ZRO® Level 2 hip and knee armour that's now an integral part of the 2024 Bull-it range, and built to the highest standards, this incredible new product is the new benchmark for riding jeans.

Available Sizes:

Product Code:

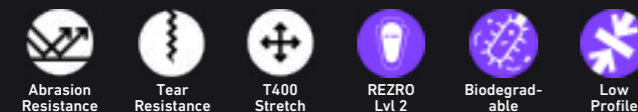

SLIM : 26 - 38 S (30), R (32), L (34)

SLIM : 2432

STRAIGHT : 30 - 44 XS/S/R/L

STRAIGHT : 2428

Example SKU: 2432-3036. Further details on SKU on page 40.

RRP: £199.99

- 1 The external armour entrance allows quick and easy access for removal and reinstallation of armour for washing, etc. Two slots allow for height adjustment to achieve the perfect fit.
- 2 The Guardian is made with the most advanced grade of lightweight Covec® Oneskin denim to date. Delivering AAA-rated protection, this incredible riding jean is the new benchmark.

MENS SPITFIRE

AA-CERTIFIED MOTORCYCLE JEANS

An absolute staple item for the dedicated rider's wardrobe, the dark blue Spitfire is available in a vast range of fits, sizes and leg lengths to cater for riders of all sizes and builds.

AA-rated with RE ZRO® Level 1 hip and knee armour, improvements for 2024 include the Spitfire's all-new rear yoke design that allows for an aggressive riding position while reducing the gap between the waistband and the rider's lower back.

Packed with premium design and style touches, the Spitfire is the perfect everyday riding jean for the discerning motorcyclist.

MENS MASTIFF

AA-CERTIFIED MOTORCYCLE JEANS

Washed-out mid grey tones are a big hit on the high street right now, so the Mastiff takes that aesthetic and adds all the usual Bull-it benefits.

Soft, stretchy and comfortable — yet strong, durable and protective — the Mastiff’s subtle washed-out whisker finish and grey stitching delivers a stylish mid-rise fit. AA-rated thanks to the Covac® Oneskin denim with breathable and biodegradable REZRO® level 1 hip and knee armour, this stylish new addition to the Bull-it range for 2024 brings yet another option for riders seeking a fresh new look.

MENS AJAX

AA-CERTIFIED MOTORCYCLE JEANS

Available in Slim, Straight and Easy fits and three leg lengths, the Ajax is the perfect choice for high-mileage riders of all sizes looking for unfussy style, comfort, durability and, of course, class-leading protection.

Constructed with the comfortable but tough Covac® Oneskin denim shell, the washed blue finish features subtle whiskering, white stitching and tasteful Bull-it branding. Protection is enhanced by new breathable and biodegradable RE ZRO® level 1 hip and knee armour. This result is a classic mid-rise jean that is quite simply the perfect addition to any rider's wardrobe.

Available Sizes:

WOMENS

WOMENS FURY - BLACK

A-CERTIFIED MOTORCYCLE JEANS

Available in the contemporary Skinny fit, the all-new super-stretchy Fury Black combines high street style with comfort, practicality and several well considered motorcycle-specific touches.

Breathable, biodegradable RE ZRO® level 1 knee armour comes as standard while additional Covtec® Lite reinforcement in key areas adds even more rider safety and confidence.

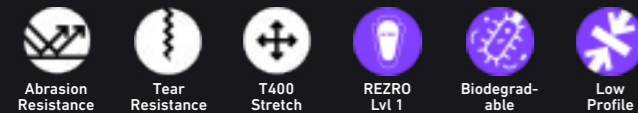

The high-rise design with double button ensures good coverage, and avoids that unsightly gap between jacket and jeans while the rear has been redesigned to be more flattering — and less flattening. Evolved and refined for our best ever skinny black riding jean!

WOMENS HERON

AA-CERTIFIED MOTORCYCLE JEANS

Due to popular demand from devoted Bull-it wearers, and to reflect its broad appeal, for 2024 the Heron is available in three fits: Slim, Straight and Easy.

A classic, mid steel blue jean, the washed-out finish adds texture and character to the Heron's laid-back, pre-faded style.

Twin silver button fastening with matching rivets and grey stitching seals the deal when it comes to the Heron's timeless aesthetic while breathable and biodegradable RE ZRO® level 1 hip and knee armour combine with the Covec® Oneskin denim for a super-comfortable, AA-rated riding jean.

MACNA 

HEATED

CENTRE JACKET

An electrically heated base layer jacket, developed for daily commuters and riders in cold conditions.

FEATURES

- Heat Reflection System™
- Bluetooth® connectivity
- Dual Power Technology™

RRP
£199.99 GBP

| | | | |
|---------------|--------|------------|--------|
| XS | 117024 | XL | 117032 |
| Small | 117026 | 2XL | 117034 |
| Medium | 117028 | 3XL | 117036 |
| Large | 117030 | 4XL | 117038 |

The Centre is both able to raise your core temperature and retain the warmth it provides. It is fitted with our Heat Reflection System™, which is a very thin film on the inside of the garment that reflects heat that would otherwise be lost. This makes the garment more efficient as the need for energy is reduced.

This jacket is also suited to be worn as stand-alone garment during outdoor activities such as fishing and hiking.

Dual Power Technology™ lets you choose between a 7.4- or 12-Volt power supply. Power can be supplied by a battery in the jacket or a direct connection to the battery of your motorcycle.

There are 4 heating levels, each indicated in their own colour by the Power Controller. The controller at the chest also tells you how much power you have left, and lets you change the level by pressing it.

Alternatively, you can operate this jacket – and other garments – in the MACNA® Heated app. The app enables you to manage all your heated garments with just one hand instead of unzipping and reaching for hidden buttons.

Download it for free in the known stores, connect your jacket by Bluetooth® and fully manage your heated ecosystem on your phone.

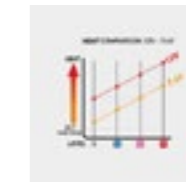

The Centre is what we call heated riding gear!

The improved Progress 2.0 is fully waterproof thanks to its Raintex Direct Laminate membrane, which also prevents the glove from soaking up water and getting soggy and heavy. It features a double, waterproof cuff and a comfortable thermal lining.

Dual Power Technology™ lets you choose between a 7.4- or 12-Volt power supply. Power can be supplied by a battery in the cuff or jacket, or a direct connection to the battery of your motorcycle. There are 4 heating levels, each indicated in their own colour by the battery level indicator. The indicator at the back of the hand also tells you how much power you have left, and lets you change the level by pressing it.

Alternatively, you can operate these gloves – and other garments – in the MACNA® Heated app. The app enables you to manage all your heated garments with just one hand instead of unzipping and reaching for hidden buttons. Download it for free in the known stores, connect your gloves by Bluetooth® and fully manage your e-heated ecosystem on your phone.

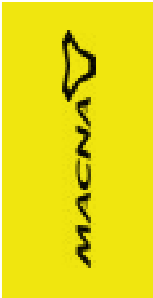

You can operate the app without taking your gloves off, thanks to the Touch Tip at the index finger. This same finger also features a Screen Cleaner™; a flexible extension at the ridge that lets you wipe rainwater off your visor.

Both the thumb and pinkie are constructed in an ergonomic way. Ergothumb™ means the thumb and index finger are made of one and the same panel of fabric. This reduces seams and pressure points whilst also giving a wrinkle-free look. The seam on the outside of the little finger (i.e. pinkie) is positioned in a way that prevents pressure points, we call it Ergopink™.

Safety wise, flexible yet robust TPR protectors are present at the cuff and palm of the hand, and impact-absorbing EVA protection at the thumb. The latest protective innovation is placed at the knuckles and fingers, where you'll find our Armax™ protection. This unique construction does not make use of seams – the weakest link in a construction – in critical areas, which greatly increases your safety.

The buckle of the wrist strap is placed under an ergonomically optimised angle of 30 degrees, enabling optimal freedom of movement at the wrist. Last but most certainly not least, we've opted for our own Night Eye™ fabric to raise your visibility when traffic is near you.

The Progress 2.0 is what we call heated riding gear!

The Dane Nimbus 2 Pro Motorcycle Jacket is engineered for riders seeking advanced protection and all-weather performance. Built with premium materials like SAS-TEC armour for impact absorption and GORE-TEX Pro for waterproof and breathable protection, the jacket ensures comfort and safety in any riding conditions. Its outer shell incorporates CORDURA® fabric for abrasion resistance, along with GORE-TEX ARMACOR™, which combines CORDURA® and aramid fibres for enhanced durability in key areas.

For colder climates, the jacket features CYNIX® 3F insulation and a DuPont™ ComforMax™ thermal lining, providing warmth without added bulk. Super-Fabric® technology in critical zones offers extra abrasion resistance without sacrificing flexibility. Certified to Class AA EN 17092-3:2020, the Nimbus 2 Pro meets high standards for protective performance.

The jacket's outer material is primarily composed of polyamide, including INVISTA Cordura® and GORE-TEX ARMACOR™, along with aramid and elastane for flexibility. A polyester net lining ensures breathability, while the thermal lining, made of DuPont™ ComforMax™, offers lightweight warmth. With its rugged construction and advanced features, the Dane Nimbus 2 Pro is ideal for riders who prioritize safety, durability, and comfort.

The Dane Bornholm Pro Motorcycle Jacket is designed for adventure riders who need superior protection and comfort in all weather conditions. Featuring a GORE-TEX® Pro 3-layer laminate, this jacket is both waterproof and highly breathable, ensuring you stay dry without overheating during long rides. Its outer shell is constructed from durable CORDURA® fabric, offering excellent abrasion resistance and durability.

For impact protection, the Bornholm Pro comes equipped with RISC shoulder and elbow armour, providing top-tier shock absorption in the event of a fall. The jacket also has a thermal lining that is removable, making it versatile enough for use in both cold and warm weather. Ventilation zippers strategically placed on the chest and back allow for optimal airflow, keeping you cool on hot days.

The jacket is designed with a comfortable fit and features multiple adjustment points for a tailored feel. It also includes reflective detailing for enhanced visibility in low-light conditions, ensuring safety during night rides. With its rugged construction and practical features, the Dane Bornholm Pro is perfect for motorcyclists looking for dependable gear that performs in all seasons.

The Dane Svendborg Motorcycle Jacket offers a perfect balance of protection, comfort, and versatility for touring and everyday riders. Built with a 2 Gore-Tex layer-laminate, it ensures waterproof and windproof protection while remaining breathable, making it suitable for all weather conditions. The jacket's durable polyamide fabric construction delivers high resistance to abrasion, keeping you safe during long rides.

For added protection, the Svendborg comes equipped with SAS-TEC armor at the shoulders and elbows, offering exceptional impact absorption. The jacket also features a removable thermal lining, allowing you to adapt to changing temperatures, making it ideal for both colder climates and warmer weather.

Ventilation zippers are strategically placed to improve airflow, keeping you cool on hotter rides. Adjustable waist and cuff closures ensure a customized fit, while reflective details enhance visibility in low-light conditions, promoting safety during night rides.

With its combination of practical features and premium materials, the Dane Svendborg is designed for riders who demand reliable performance and comfort in all conditions, whether you're commuting or embarking on long-distance tours.

The Dane Lyngby Air 2 GORE-TEX Pro Motorcycle Trousers are engineered for riders who seek ultimate comfort and protection in any weather. Featuring a durable GORE-TEX Pro membrane, these trousers are fully waterproof, windproof, and highly breathable, ensuring optimal performance in both wet and dry conditions.

Constructed with robust CORDURA® fabric, the Lyngby Air 2 trousers offer excellent abrasion resistance, while SuperFabric® reinforcement in key impact areas enhances durability and protection. For added safety, SAS-TEC armour is included at the knees and hips, providing superior impact absorption.

The trousers are designed with large ventilation panels, offering enhanced airflow for comfort during warm-weather rides. Adjustable waist straps and leg cuffs allow for a personalized fit, while reflective detailing increases visibility in low-light conditions.

Ideal for touring and adventure riders, the Dane Lyngby Air 2 GORE-TEX Pro trousers are built for those who demand versatility, protection, and comfort on every journey.

The Dane Elling GORE-TEX Motorcycle Trousers are designed for riders who demand top-level protection and comfort in all weather conditions. Made with a GORE-TEX 2-layer laminate, these trousers are completely water-proof, windproof, and highly breathable, ensuring you stay dry and comfortable in any riding environment.

Constructed with durable polyamide fabric, the Elling trousers offer exceptional abrasion resistance, while SuperFabric® reinforcement in high-impact areas provides added durability and safety. SAS-TEC armour at the knees and hips ensures superior impact protection in case of a fall.

The trousers are equipped with adjustable waist and leg closures for a secure, custom fit. Ventilation zippers enhance airflow for added comfort in warm weather, and reflective detailing ensures better visibility in low-light conditions. Whether touring or commuting, the Dane Elling GORE-TEX trousers provide premium weatherproofing, safety, and comfort for long-lasting riding performance.
